## **Purpose**

The U.S. Department of Energy (DOE) will present its methodology developed for the Notice of Proposed Rulemaking (NOPR) analyses addressing certain American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE)/ Illuminating Engineering Society of North America (IESNA) Standard 90.1-2007 (*i.e.* ASHRAE Standard 90.1-2007) equipment and the results of the analyses. DOE will also describe its proposed test procedures and amended energy conservation standards for certain equipment classes in ASHRAE Standard 90.1-2007. Lastly, DOE will also seek input from interested parties on its methodologies, assumptions, data sources, test procedures, and proposed standard levels.
